

AMMARA AZWADIENA ALFIANTIE

Full Stack Developer · Software Engineer

Tangerang, Indonesia | +628118381771 | mara.azwa@gmail.com | linkedin.com/in/ammara-azwadiena

SUMMARY

Third-year Informatics Engineering student at Universitas Padjadjaran with hands-on experience in fullstack development, REST API integration, and frontend-to-backend migrations. Proven ability to work in cross-functional Agile teams delivering scalable software. Experienced across Java, Python, JavaScript, Spring Boot, Angular, and React.js, with a strong foundation in relational databases and UI/UX design.

TECHNICAL SKILLS

Languages	Java · Python · JavaScript · HTML/CSS Golang (basic)
Frameworks	Spring Boot · Angular · React.js · Tailwind CSS
Databases	MySQL · PostgreSQL · SQL · Relational schema design
Tools	Git · Figma · Swagger · Jira · Notion · Google Suite · Canva
Methodology	Agile/Scrum · REST API integration · UI/UX design

TECHNICAL EXPERIENCE

Undergraduate Research Assistant · AI Laboratory, Universitas Padjadjaran May 2026 – Present
NLP · Privacy-Aware AI · Technical writing

- Conducted literature reviews on Privacy-Aware Chatbots, analyzing NLP models and data protection methodologies for higher education ecosystems.
- Authored a technical review manuscript within a 1-month deadline covering AI data governance, user privacy frameworks, and secure LLM deployment strategies.
- Collaborated with lab principal investigators in weekly progress reviews to evaluate architectural feasibility of secure educational AI systems.

Software Engineer Intern · CSG International Feb 2026 – May 2026
Angular · Tailwind CSS · REST API · Agile

- Executed Phase 3 of a Bootstrap-to-Tailwind CSS migration for the enterprise Quote/Order portal, eliminating legacy dependencies and reducing technical debt.
- Refactored UI components including alerts, panels, pagination, and dropdowns to utility-first classes.
- Implemented Flatpickr datepicker integration and collaborated on Bootstrap Select architectural replacement.
- Resolved 5+ high-priority tickets involving API response handling and UI-state management in Angular.
- Maintained 100% on-time sprint delivery within an Agile team of 5+ developers and managers.

UI/UX Design Intern · Safeena Academy Dec 2025 – Jan 2026
Figma · LMS · Requirements gathering

- Designed high-fidelity Figma prototypes for a Learning Management System (LMS), documenting user journeys and interface specifications for developer handoff.
- Translated business and technical requirements into structured UI specifications, simulating API contract documentation practices.

UI/UX Designer · Gamification for Child Protection Project Jul 2025 – Sep 2025
Figma · User research

- Designed interactive Figma prototypes based on user research data and questionnaire insights.

Website Administrator · Warta Kema, Universitas Padjadjaran May 2025 – Dec 2025
Web management · Publishing pipeline

- Maintained the organization's official website, overseeing backend content operations, system uptime, and navigation integrity.
- Managed a structured content publishing pipeline across multiple media formats.

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

Editor in Chief · Warta Kema, Universitas Padjadjaran

Dec 2024 – Dec 2025

- ▶ Directed editorial operations for a multi-department media organization, overseeing 40+ journalistic works and scaling the audience to 7,000+ followers.
- ▶ Led content strategy initiatives recognized with the 'Most Innovative Social Media' award at Unpad Awards 2025.

Magazine Coordinator · Warta Kema, Universitas Padjadjaran

Jul 2024 – Dec 2024

- ▶ Led a team of reporters, managed content selection, conducted quality checks, and oversaw the end-to-end magazine production pipeline.

Reporter · Warta Kema, Universitas Padjadjaran

Mar 2024 – Dec 2024

- ▶ Wrote campus articles gaining 900+ Instagram likes and produced news videos reaching 3,000+ views.
- ▶ Conducted live event reporting and real-time updates via social media.

Staff, Registration & Database Management · StudentsxCEOs Grand Summit

Apr 2025 – Jul 2025

- ▶ Managed end-to-end registration pipeline for 60 participants, ensuring 100% data accuracy.
- ▶ Built deduplication logic and filtered views in Google Sheets for cross-functional data access.

Staff, Marketing & Sponsorship · IFEST UNPAD

Jun 2024 – Oct 2024

- ▶ Secured corporate partnerships and delivered targeted sponsorship pitches to external stakeholders.
- ▶ Coordinated cross-functional marketing initiatives and managed promotional timelines.

Staff, Social Department · Himatif FMIPA Unpad

Feb 2024 – Dec 2024

- ▶ Raised over 6 million IDR in donations delivered to four orphanages on behalf of HIMATIF members.
- ▶ Published monthly scholarship content on HIMATIF's official Instagram (3+ posts published).

Staff, Event · CBS Himatif

Jun 2024 – Oct 2024

- ▶ Designed and executed event itineraries, managing live program logistics and resolving real-time scheduling challenges.

Staff, Public Relations · Instagram Himatif

Apr 2024 – Jun 2024

- ▶ Managed tournament administration, venue logistics, and official information pipelines for public announcements.

Vice Project Officer · Mubes X Himatif 2023

Nov 2023 – Dec 2023

- ▶ Managed a committee of 20+ first-year students and directed work progress across seven divisions.

Intern, Internal Relations · Himatif FMIPA Unpad

Nov 2023

- ▶ Contributed to planning internal programs (HGD & IFFD), managing 50+ participants and attendance confirmation.

EDUCATION

Bachelor of Informatics Engineering (Computer Science) · Universitas Padjadjaran

2023 – 2027

Data Structures & Algorithms · Database Systems · OOP · Software Engineering · Web Development

Full Stack Bootcamp — Scholarship Recipient · Kulkul Tech x Ladies In Tech

Oct 2025 – Jan 2026

Java · OOP · Spring Boot · Angular · JavaScript · REST API · Swagger
